SAMUEL G. HAGOS

SOMETHING ABOUT ME

I recently restarted my career to gain skills in the tech industry to pursue my passion of solving problems and meeting the needs of the new world we live in today. As an immigrant, I look to pave a way for my family and show with hard work anything is possible.

..

OBJECTIVE

Secure a position as a full stack web developer to showcase my talent and passion to help bring ideas into reality

EXPERIENCE

Line Lead | Target Warehouse| Mar. 2020 - Present

Responsible for the management of all products being shipped out for fulfillment. Quality control and accuracy of products are done by following a 10-point inspection to ensure products meet specifications.

EDUCATION

Full Stack Developer Certificate | March 2022 | University of California Berkeley Coding Boot Camp

24-week online course that prepares students to take on a role as developer. The program was broken to 3 phases: **Phase 1** – Foundational, study on concepts of web development, covering HTML, CSS, and JavaScript, as well as command line fundamentals and API consumption. **Phase 2** – Technical, engineering a full-stack web application, working with servers, databases, and other backend technologies, and connecting them to the front end. **Phase 3** – Performance, acquire skills to optimize your web applications for speed and efficiency as well as prepare yourself for the transition to a career in web development.

High School Diploma | June 2007 | Dekhamre Comprehensive School

G.P.A. 3.5/4.0
